

Response Plan for Covid-19

Self-quarantine is recommended for Premiere employees who have been directly exposed or have symptoms of the new Coronavirus.

Remove from work area.

If an employee is diagnosed with Covid 19 or someone in their household has been diagnosed, they will be sent home immediately.

Premiere will maintain non exposure contact with employee.

Disinfect Area

Work areas used by infected employee will be thoroughly disinfected.

Premiere will distribute correct PPE to protect all employees.

Employee Self Quarantine

Employee will self-quarantine for 14 days and will return to work only when cleared by doctor.

Watch for other symptoms.

Other employees will be advised to watch for symptoms of COVID 19

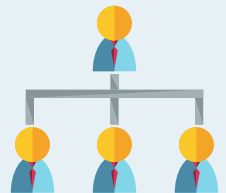

Refer to CDC symptoms chart.

Advise Employees

All employees will be advised that have had any interaction with infected employee.

Non contact temperatures might be administered at the workplace by Premiere

Practice social distancing.

Premiere will advise all employees to maintain 6 feet distance from each other while working.

Employees should consult doctor or hospital before visiting.

If an employee is suspect of having symptoms, they should consult their doctor immediately to be diagnosed.
